# BODY FORMS PORTRAIT

*The Most Unique  
Gift Ever!  
for him... for you...*

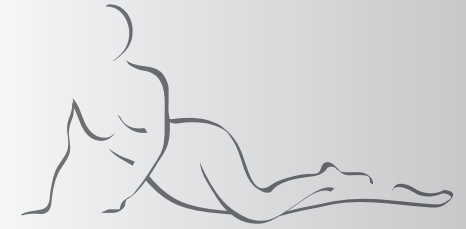

4 image showcase collage horizontal

2 image collage horizontal

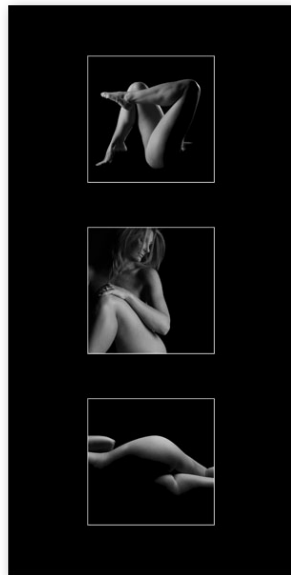

I use a technique of subtle side and back lighting to create a very dramatic look. The photographs work with the beautiful lines and angles of the female form. Having photographed many women of different sizes and shapes, I am able to create a personal series of images unique to each figure. These images are very tasteful and not so revealing. A wonderful gift for a special person or yourself.
